HAPPY NEW YEAR

Let's all ride
and have a super safe year!

General Information for Group Road-Rides

- Non-members are welcome on all rides.
- Helmets are mandatory.
- Lights are required on all night rides.
- Riders are expected to bring the essentials. *See list bottom right.*
- "Pace average" refers to the average on your computer at the end of a ride. If we say an average of 13 – 15 mph, you will be riding over 15 and under 13 at times, but the average at the end will be 13 – 15.
- All speed listed below are guidelines.

A Group – Ride lengths will be 45-60 miles with the pace averaging over 18 mph. Moderate to difficult terrain. Focus on performance, pace lining, climbing and endurance. Group riding experience, general mechanical skills expected.
B Group – Ride lengths will be 35-45 miles with the pace averaging 15-18 mph. Moderate to difficult terrain. Focus on performance development, pace lining and climbing. Group riding experience, general mechanical skills expected.
C Group – Ride lengths will be 25-40 miles with the pace averaging 13-15 mph. Mixture of flat/rolling hills with some moderate climbing. Riders should have group riding experience, basic bike handling and mechanical skill.
D Group – Ride lengths will be 20-35 miles with the pace averaging 11-13 mph. Mixture of flat/rolling hills with some moderate climbing. Regroup as necessary.
E Group – Ride lengths will be 15-25 miles in length. The pace will be according to the riding abilities of those riding that day. Some riding skills and comfort with road traffic involved. New riders always welcome and a good place to start. Assistance and instruction will be provided in basic skills of fixing flats, bike handling, and group riding. Regroups often.

Be prepared to start on time and have an enjoyable ride. Then stick around to enjoy a soda or snack and good company after the ride.

MOUNTAIN BIKING SCHEDULE

TEAM DIRTY WORK is the mountain bike side of the Riverside Bicycle Club**.** All mountain bikers are welcome. Generally, almost all reasonably fit people can enjoy riding with Team Dirty Work. We offer a variety of rides each week. This is a great way to get involved in a mountain biking group. We enjoy having new riders join us.

Most of our rides start in the Canyon Crest Towne Center Parking lot in front of Rite Aid near Bank of America (corner of Central and Canyon Crest Drive). These rides are approximately 2 hours long through the Sycamore Canyon area. Some weekends, bicycles are transported to other locations to ride. Please call R.C. Morton at 909-784-0459 for any last minute updates. Or visit https://www.facebook.com/groups/teamdirtywork/

Our mountain bike group rides are held each **Saturday & Sunday** morning These rides are for experienced beginners and intermediates to advanced dirt riders. Evening rides are held on **Tuesday and Thursday** starting at 6:00 pm. and are designed for the more advanced dirt junkie.

Lights are required for night rides!

WHAT'S HAPPENING

A Few Words from our President

As the new President of the Riverside Bicycle Club, I would like to thank Roger for his many years of service on the board and his last three years serving as the president of the club. I would also like to thank the former board members from this last year as well as since the club began. It is only through their vision and dedication that the Riverside Bicycle Club has lasted to this date. I hope that even in a small way I would be able to be part of this legacy for cyclist in Riverside and in The Inland Empire. There are many things that a bicycle club can be. I believe we have a responsibility to all cyclist in Riverside, including ourselves, to be part of the improvement process. I hope to find many ways that the Club and I can get involved in the decision-making processes that affect cyclist, whether they wear fancy clothes and ride expensive bikes or just ride their bicycle to their job because they cannot afford a vehicle or have chosen an environmental friendly way. I believe we need to be advocates for all cyclists. I hope that in the future we will be able to look upon our streets as ones that are designed for and used by all cyclists.

Thank You

John Hawksley

President of the Riverside Bicycle Club 2015

WHAT'S HAPPENING

SANTA ANA RIVER:

New group hopes to enhance recreation options.
http://www.pe.com/articles/river-757126-riverside-trail.html
Dec. 28, 2014. (truncated article)

Read this story and learn about the creation of the Santa Ana River Conservancy and their ideas that may lead to more recreational opportunities for play along the river.

Imagine Riverside with a river. Not a scary river lined with chain link, where graffiti-scrawled signs warn against swimming and drinking, where weeds catch fire in the dry, windy months and the riverbanks are concrete, not dirt.

Imagine instead a river with sandy beaches where families can wade, splash and enjoy picnics. A river where kids at summer camp can collect and identify bugs or look for animal tracks in the soft sand. A river where you might even paddle a kayak or float a raft.

That river already exists in a few places, though not that many people know about it.

Now the Santa Ana River Conservancy, which will begin taking shape next month, may help some of those imaginings come to life all along the river, from the San Bernardino Mountains to the sea at Huntington Beach.

What will help the most is if people and communities along the river start viewing it as a recreational, environmental and even economic resource, said former Riverside Mayor Ron Loveridge.

"The river needs to go from out of sight, out of mind to become a major resource for this region," Loveridge said. "I think we're poised on the cusp of change. It can be a big deal if we embrace the river and recognize its promise. I think the conservancy is one major step toward reaching that objective."

28 fatalities in the IE for 2014. Far too many.

ANOTHER BIKE RIDER KILLED ON CENTRAL

The year started off with David Mendez getting killed while riding his bike on Central Ave. and on Dec. 27th. there was another fatality in the same EXACT spot, in front of Olivewood Cemetery.

68-year old Israel Cerda Contreras was riding east shortly after noon, Cerda was pumping the pedals to get up the hill and was struck and killed by a car.

SAN BERNARDINO: Businessman and philanthropist killed in collision

http://www.pe.com/articles/bernardino-757193-easley-san.html
Update: Comments on Easley's life added

William Easley, a prominent Inland business owner, was killed after his bicycle was hit by a car Monday morning. Easley, who went by Bill, was known locally as co-owner of Goforth & Marti Business Interiors, an office furniture supply company with offices in Riverside, Redlands and San Diego. He was also a longtime member and former chairman of Inland Action, a group that promotes economic development in San Bernardino County, and the former Riverside District Coordinator for the National Association of Investors Corporation. Easley was frequently quoted in The Press-Enterprise as an expert on local economic issues. Carole Beswick, CEO of Inland Action and former Redlands mayor, said Easley was a true community leader. "He saw things that needed to be done and came up with solutions that benefited everyone," she said.

Easley, 81, was riding with another cyclist westbound in the 1000 block of East Lynwood Drive shortly after 6 a.m. While riding in the right lane of traffic, Easley was hit from behind by a 1997 Honda Accord, a San Bernardino Police Department news release said.

The other cyclist, a local doctor, attempted CPR. Easley was taken to the hospital, where he died.

Both bicycles had rear reflectors and Easley was believed to be wearing a helmet at the time of the accident, according to the release.

The driver of the Honda, Felix Salazar, 36, of San Bernardino, remained at the scene and cooperated with investigators. Officials believe Salazar was unlicensed at the time of the collision, and have not determined a cause.

Beswick said Easley's death came as a shock to those who knew him well. "Everyone really liked him," she said. "He will be so very missed."

P.S. a large outpouring of condolences were posted for Cici and her family.

Ride to the Rose Parade

RBC's annual Ride to the Rose Parade with the usual 4 start locations, most of us started at Citrus College in Azusa where by 8:00 the temps were starting to warm up to just darn-cold. Surprisingly no snow on the mountains after local snow fell in nearby areas. Very enjoyable sharing this fun ride with the First-Timers! We viewed the parade farther north on the route with better visibility. (:

RIVERSIDE BICYCLE CLUB
www.Riversidebicycleclub.com

The Riverside Bicycle Club is for all bicyclists; commuters, off-road riders, recreational riders, tourists or just plain cyclists who ride a bicycle for fun, health, or competition, and anyone who interacts with them.

Our purpose is to provide companionship, bicycle education and training, and a bit of bicycle advocacy. To do this we will:

- Provide companionship by having monthly meetings for people with a love for bicycling who want to meet people with the same interests, to share ideas, to talk about ride routes and to discuss bicycling.
- Encourage participation of people who are interested in starting to ride a bicycle.
- Have educational programs to assure that bicyclists can enjoy their riding experience to the fullest.
- Publish a monthly newsletter (12 issues/year) to inform members of club activities, rides, and general bicycling information.
- Provide weekly rides of different levels, so that everyone can share the bicycling experience
- Advocate with local, regional, state and government agencies as to the needs of bicyclists, to encourage services for the bicycling community, and for inclusion of bicycling needs in infrastructure design and development of roads that can be shared by both motor vehicles and bikes.

Recycle this newsletter!
Leave it at your barber/beauty shop, the doctor's or dentist's office, wherever you think another cyclist will read it and discover the *Riverside Bicycle Club*. Photocopy it and pass it around.
